

Farmers' Agricultural Cooperative

Farmers' Agricultural Cooperative

LEMONGROUP is a cooperative that specializes in the production, processing and marketing and sale of lemons from the Amalfi Coast and the south of Italy. Active for four generations, it now manages to combine fifty years' experience with the very latest production techniques, retaining acknowledged leadership in the sector.

Wholesomeness and freshness are the objectives **LEMONGROUP** targets every day, in order to guarantee excellent quality standards and produce free from residues, plant protection products and pesticides, bringing to consumers' tables all the genuineness, fragrance and colours of the nature of the Amalfi area.

Of all its lemon groves, it takes particular pride in the one in the village of Torre di Minori-an enchanting garden between the land and sea, in an area that has been declared a world Heritage Site and is protected by UNESCO.

PRODUCTS

LEMONGROUP aims to promote and safeguard PGI Amalfi Sfusato lemons - the symbol of this area's excellence - as well as PGI Rocca Imperiale lemons and leaf lemons (or natural lemons), all top-quality products that grow and ripen to become extremely juicy, aromatic and intensely fragrant fruits, rich in essential oils. As chemical treatments are not used after harvesting, these outstanding characteristics make it a precious base in the production of lemon liqueurs and a unique and typical ingredient in the most refined cuisine.
