Fruit and Vegetable Producers Organization

Pempacorer is an organization of fruit and vegetable producers founded in 2003. Today it guarantees fresh fruit and vegetables for the Italian and European markets thanks to their territory integration, expertise and to production and seasonal cycles.

The specialization achieved by Pempacorer means maintaining top-quality produce and ensuring complete traceability. Thanks to accurate laboratory tests, it also guarantees that final consumers can enjoy products that meet the highest food health and safety, and environmental protection standards.

Pempacorer members have invested in specialist storehouses for processing and packaging in order to improve and optimize services.
