# O.P. TERRA DI BARI

## Agricultural Cooperative

The Terra di Bari producers' organization was set up by a group of producers of dessert grapes from Noicattaro who joined together with the aim of constantly improving and consolidating production in terms of quality, food safety and environmental protection. Today, the producers' organization groups together about 20 farms for a total of around 200 hectares of cultivated land, 5,000 tonnes of dessert grapes and over 1,000 tonnes of watermelons and peas. Having a spacious and well-equipped processing warehouse, with around 600 m<sup>2</sup> of cold stores, means the Terra di Bari producers' organization can satisfy all customer needs in terms of types of packing and product packaging, preservation and transport.

The entire production chain is managed by a staff of agronomists who strive for the highest quality standards, in full compliance with best agricultural practices.
